CANDY & DEEP FRY RULER THERMOMETER

CDN's Candy & Deep Fry Ruler Thermometer (TCG400) is designed to help foodservice chefs make superior candy, jelly and deep-fried foods. The body and attachment clip are made of stainless steel for safety and durability. The bottom of the glass column is also enclosed in stainless steel to prevent it from touching hot surfaces that might cause inaccurate readings.

With target range indication printed directly on the scale, the Candy & Deep Fry Ruler Thermometer provides easy control over candy and other high temperatures. The thermometer features key temperatures in the candy range in red and deep fry temperatures in blue.

FEATURES

- 8"/20.3 cm color-coded scale
- Waterproof
- Target range indication
