SmartFit™ Pans

SmartFit™ Pans were designed with the food merchandiser in mind. With the unique, patent-pending, interlocking system – pans stay in place.

Quick & Easy Set Up

Pans securely catch on the specially designed adapter bars, eliminating the pans from falling into the well during food bar set up and tear down.

“Very Good! Customers love the new white containers on the salad bar.”

- Bill W.
Regional Manager, Carolina Region
Southern Foodservice Management Inc.

Modern Design

Sleek, modern design allows the focus to be on the food, not the pan. With a ceramic look, but made from break resistant melamine, SmartFit™ Pans display food beautifully with minimal investment.

2

“New salad bar containers work great! Love the clean and consistent look.”

- ProMedica, Toledo

No Limit of Configurations

SmartFit™ Pans include all standard pan sizes in up to three depths. No more searching for the right size pans and no limit to the number of configurations you can create.

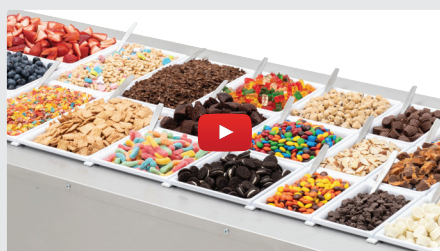

4

Product Specifications

NSF

Designed for NSF7 and non NSF7 cold well cases. Pans stack for easy storage. Dishwasher-safe. Cold applications only and not for use in microwave.
