### Cam GoBox®

Insulated transporters are ideal for caterers looking for an ultra-lightweight transporter that offers superior temperature retention to protect food safety and excellent durability to withstand heavy commerical use. Cam GoBoxes will ensure that food stays at safe temperatures below 39.2°F or above 149°F for many hours during holding and transport. Best results will be achieved by loading food pans between 180°F to 190°F. Loading metal food pans over 250°F will result in damage to the carrier. Built-in handles allow them to easily be transported.  Front loader has durable hinges and latches that allow the door to open a full 270° and remain open securely to the side. Expanded polypropylene is 100% recyclable, CFC-Free. Great structural strength is capable of handling significant loads and has an excellent energy absorption that can withstand substantial impact without damage  Freeze Camchillers flat overnight and place at the top of your carrier to use. Place Camwarmers in a hot water bath for 35 minutes and place at the bottom of your carrier to use. ThermoBarrier works only in the Front Loader and is designed to keep hot or cold air concentrated within the carrier. Camdolly, equipped with 4 swivel casters with 2 brakes, holds both the Top Loaders and Front Loader. NOTE: Camchiller, Camwarmer,  ThermoBarrier and Dolly will only work with the full size pan carriers.

| Item | | Exterior Size | Interior Size | Capacity | Wt | Stock No |
|---|---|---|---|---|---|---|
| | **GOBOXES** | | | | | |
| **A.** | Top Load Half Pan | 15²/₅L x 13W x 10¹/₁₀H | 13L x 10³/₅W x 7³/₅H | 17.8 Qt | 2 | **51905** |
| | Top Load Half Pan | 15²/₅L x 13W x 12²/₅H | 13L x 10³/₅W x 10H | 23.5 Qt | 2 | **57185** |
