

C200

Coin Counter / Sorter / Wrapper

A Complete Solution to Coin Counting

The Cassida C200 is an all-in-one solution for any coin handling need. Easy to use, it counts, adds, batches, and wraps automatically.

Easy to use

The C200 recognizes individual denominations and sorts them automatically into large bins. No dials and no knowledge of coin dimensions required. Just load the hopper, press start, and walk away. A built-in steel handle makes transporting the C200 easy.

Counting, adding, and batching

The C200 includes all the counting modes you would expect to find on a Cassida-designed coin sorter. Batch mode counts amounts as low as 1 coin or as high as 500. An easy-to-read LED display shows both number of coins and dollar amount for each denomination, as well as the grand total.

One step sorting and wrapping

It takes only seconds to exchange the C200's bins for the included wrapping attachments. One button switches all denominations to the correct batch amount and the C200 stops when a wrapper is full—great for fast-paced environments where there is a need to switch between wrapping and bulk sorting.

Fast, but quiet

The C200 is quiet in operation, even when counting and sorting at 300 coins per minute!

Sorts and wraps in one step

Counts 300 coins/min from its 2,000 coin hopper

Product Specs

Model range:	C200
Dimensions, unit:	11.2" w x 10.8" d x 10.2" h (284mm x 274mm x 259mm)
Weight:	8.7 lbs (4.0 kg)
Power input:	110 VAC
Power consumption:	45 watts
Warranty:	1 year limited warranty

Counting Specs

Counting speed:	300 coins/minute
Hopper capacity:	2000 (dimes)
Coin bin capacity:	900 (dimes)
Countable coins:	1¢, 5¢, 10¢, 25¢, \$1

Operating Modes

Count:	simple count; auto-stop
Batch:	presets or programable to 500; separate by denomination
Add:	0 – 9,999; adds up all counts
Reports:	1. Count by denomination 2. Dollar amount by denomination 3. Dollar amount grand total
