

4-Crate Cooler Spec. Sheet

Frozen Panel Cooler

Set Up Instructions

1. Safely dispose of the plastic covering from around the COLD-SELL® chest.
2. Remove the corrugated cartons containing the cold cells from inside the unit and set them aside.
3. Lift the COLD-SELL® chest from the pallet. Safely discard pallet and packing materials.
4. Unpack the cold cells from their corrugated cartons and freeze them for 24 hours or until completely frozen. We suggest that the panels be frozen in a vertical position with the hand hold at top and a space in between each panel to allow for air circulation.
5. To begin using the COLD-SELL® unit, arrange the frozen cold cells according to the diagram and place the prechilled product and crates into the resulting cavity.

General Use Instructions

1. With proper use, the COLD-SELL® System will maintain the temperature of the products inside the unit in the low 30's for up to 24 hours.
2. The cold cell panels must be completely frozen before each use to assure optimum cooling efficiency.
3. The product and its bulk container must be chilled prior to placement in the COLD-SELL® unit.

4-Crate Cooler (1)

14 x 24 Cold Cells (7)

Dims:

36" Wide x 37"
Long x 34" Tall

Holds 256 1/2 Pints in
4 Standard 16 quart
Dairy Crates

4. A freezer that creates 0°F minimum temperature is preferred to assure complete freezing of all cold cells.
5. **Every 24 hours** the cold cell panels must be exchanged and lower level product rotated with upper level ones to maintain proper product temperature.
6. Agitate the cold cell panels before refreezing them.

Cleaning Instructions

1. Use a mild non-abrasive detergent and wipe dry both the interior and the exterior as required.
2. Panels can be cleaned with a mild detergent and a plastic brush, wiping dry before freezing.

COLD-SELL® Systems disclaims any responsibility or liability for any and all direct or indirect, actual, consequential, or incidental damages arising out of failure to follow the instructions outlined above, including property loss and personal injury or illness. Further, by purchasing this product, customer agrees to defend and indemnify and hold harmless COLD-SELL® Systems in any claim made against COLD-SELL® Systems arising from customer's use or installation of the equipment.
