FEATURES AT A GLANCE

- **High Volume Brewing** – OMGT/OMGT10/OMGT16 brews 36 gallons of coffee per hour. OMGS/OMGS16 brews 25 gallons of coffee per hour.
- **High Volume Tank Capacity** – 6.5 gallons (Single), 14.5 gallons (Twin).
- **G4 Digital Control Board** – Password protected, precise control over all aspects of brewing, including pre-infusion, pulse-brew and volume control.
- **Built-In Self Diagnostic System** – Alerts operator of system failure and machine preventive maintenance.
- **On-Screen Instructions** – Easy to read and follow instructions on display for fast, intuitive operation and training.
- **High-Volume Hot Water Faucet** – For instant beverages and other hot water needs. Dispenses 1.3 gpm.
- **High Volume Brew Basket** – Can accommodate up to 28 oz of coffee grounds.
- **USB Functionality** – USB port makes changes to program settings simple and efficient.
- **Energy Saving Mode** – Easily customized setting reduces tank temperature during idle times.
- **Pre-Set, One-Touch Global Recipes** – Based on coffee type, grind and weight to produce a gourmet coffee profile out-of-the-box.
- **Electrical Conversion** – All Omega® units ship standard from the factory as 3-Phase. All units easily convert from three phase to single phase in the field.

Twin Coffee Brewer With Two
TXSG0301S200 3.0 Gallon
Dispensers
(Sold Separately)

Where High Volume Meets Precision Brewing.

The Omega® high volume coffee brewing system is designed to optimize coffee quality while reducing maintenance and service. On-board self-diagnostics continually sense proper brewing operations and displays a message to alert the operator if an action is required or preventative maintenance is needed.

Curtis Omega® systems are factory set for out-of-the-box operation with pre-programmed recipes that ensure a consistent brew, every time. And, with intuitive, scroll-through menus, it is easy to fine-tune the brewing parameters for your gourmet coffee profile.

VACUUM DISPENSERS

- **TXSG0301S200 3.0 Gallon Dispensers** – Proprietary vacuum construction dispensers provide the best heat retention in their class.
