Toppings Dispensers – Frequently Asked Questions:

1. What can I keep warm?
 - a. This unit is ideal to hold chocolate, Nutella or other toppings you want to keep warm. Also, the warmer is ideal for sauces at a cooking station.
2. What is the highest temperature setting?
 - a. The units are thermostatically controlled up to 200°F.
3. Does water need to be added to the heating well?
 - a. No. The units warming is accomplished without the use of water. No water residue will drop onto the food that is receiving the toppings. Very hygienic and easy to clean.
