

GLOBE SLICER SELECTION GUIDE

Do you have the right slicer for your operation?

To help you determine which slicer is best suited for your operation, Globe created the slicer selection guide. A few main things to consider...

1. Will you be slicing cheese? If so, how much and how often?

If slicing cheese is integral to an operation, Globe slicers are a must have! Globe's Premium slicers, with a gear-driven knife, are well suited for slicing cheese as the slicer does not get bogged down when the cheese makes contact with the knife

For medium-duty operations where cheese will be sliced on a limited basis, the heavy-duty or medium-duty compact slicers will work, see the selection guide below.

2. What if the product is frozen?

Frozen products, such as frozen meat, are difficult - at best - when slicing. Globe's NF series' slicers (3600NF and 3975NF) are designed with a serrated knife and a heavy-duty transmission to power through frozen meats.

3. How many hours per day will the slicer be used?

If slicing plays a significant role in your daily operations, Globe's premium slicers can withstand constant use and are recommended for their precision slicing, powerful performance and proven reliability.

Model No.	Slicing Volume (30 Minutes to All Day)	Precision Slicing Index	Manual (Slice to Order)	Auto (Bulk Slicing)	Cheese Slicing	Drive Type	Construction	Motor	Blade (Diameter)	Max. Slice	Cutting Capacity		
											D (Diameter)	W (Width)	H (Height)
