

SIZING GUIDE For Cut Resistant Gloves

GUÍA DE MEDIDAS Para El Guante Resistente a Cortaduras

Place left hand against top left edge of guide. Align knuckles closest to palm against top edge.

Pon la mano izquierda contra el borde superior izquierdo de la guía. Alinea los nudillos más cercanos a la palma contra el borde superior.

Read your size against the right side of hand. If between sizes select smaller size first.

Lee el tamaño en el lado derecho de la mano. Si es entre los tamaños selecciona el tamaño mas pequeño primero.

Glove should be snug, not tight. Fingers should just touch ends or be slightly short.

El guante debe ser ajustado, no apretado. Los dedos deben apenas tocar las puntas o ser un poco corto.

WASHING INSTRUCTIONS INSTRUCCIONES PARA LAVAR

Cut resistant gloves are machine washable, and sanitizer, bleach and dishwasher safe.

- Place used gloves in dishwasher between two empty dish racks, run cycle and hang dry.
- Poner guantes usados en la maquina de lavaplatos entre dos escurrerplatos vacios, correr ciclo y secar al aire libre.

WASHING INSTRUCTIONS

CUT RESISTANT GLOVES

Cut resistant gloves contain **DoubleGuard™ Antimicrobial / Antibacterial protection**, to provide the user with an additional level of protection. This protection will last for the life of the glove. **These gloves are bleach, sanitizer, dishwasher safe, & are machine washable.** To obtain the maximum life from the gloves, please observe the following recommended washing instructions.

Cut resistant gloves should be kept as clean as possible. Multiple washings or cleanings during each shift are encouraged. Where there is a concern of cross-contamination, it is recommended that a disposable poly glove be worn as an over-glove.

EASY CARE INSTRUCTIONS FOR AREAS WITHOUT WASHING MACHINES:

- **DEGREASE GLOVES USING LIQUID DETERGENT DISHWASHING SOAP. WITH THE GLOVE ON YOUR HAND, APPLY A SMALL AMOUNT OF LIQUID DETERGENT DIRECTLY TO THE GLOVE. WORK THOROUGHLY INTO THE GLOVE.**
- **1st RINSE, USE HOT WATER OF APPROXIMATELY >100° F, DIRECTLY UNDER THE FAUCET. DO NOT RUN WATER DIRECTLY DOWN THE INSIDE OF THE GLOVE. RINSE, HOLDING THE GLOVE UPSIDE DOWN & FROM THE FINGERTIPS TO THE CUFF. RINSING THE GLOVE DOWN THE INSIDE WILL WASH ANY REMAINING FOOD PARTICLES INTO THE FINGERTIPS AND CANNOT BE REMOVED.**
- **IF AVAILABLE, SOAK IN AN APPROVED SANITIZING AGENT. RINSE IN WARM WATER.**
- **2nd & FINAL RINSE, RINSE WITH HOT WATER FROM INSIDE THE CUFF TOWARD THE FINGERS.**
- **AIR DRY BY HANGING FROM GLOVE ZONE SIGNS.**

DISHWASHER CLEANING INSTRUCTIONS

- **PLACE GLOVE OVER PEG IN DISHWASHER, AIR DRY BY HANGING ON GLOVE ZONE SIGN!**
- **SOAKING GLOVES IN ANY APPROVED SANITIZING AGENT IS ALWAYS RECOMMENDED.**

WARNING: DO NOT USE THESE GLOVES WITH POWERED OR ROTATING BLADES. NOT FOR SERRATED BLADE PROTECTION

***EXCEPT DD10-SB, MAX PRO® SERRATED GLOVES
