Chef LED Light Bulbs

Models: CLED-2700, -3000, -4000

Commit to going green in your foodservice operation with Hatco's patented Chef LED Light Bulbs. Shatterproof polycarbonate lens protects the Light Emitting Diode (LED) while the exterior is made of rugged aluminium and prevents breakage of the components due to incidental contact in a busy kitchen environment. A Chef LED Bulb has substantial benefits and energy savings over other bulbs and are directional, so you can adjust it to your ideal setting.

Standard features

- Designed to operate in high temperature areas for use in any strip heater
- Unique design allows operation over a steam table
- Illuminates instantly, is dimmable and can be rotated to showcase food product below
- Average of 49% increased light output, based on Foot Candle average delivered to surface
- Uses 92% less energy (4.5W vs 60W)
- CLED-2700 and CLED-3000 project a warm light; CLED-4000 projects a cool light
- 120V and 230V (international use only)
- Warrantied for one year
