

### **Using & Caring For Your HotTiles™**

- Handle gently - tiles may crack or scratch if dropped or bumped
- Avoid hot or cold thermal shock - your HotTiles will crack
- Clean daily with hot water and a mild dishwashing detergent, by hand, using a soft/medium bristle brush or plastic scrub pad - not dishwasher safe
- Sanitize with any non-iodine-based sanitizer, following manufacturer's instructions for mixing and usage
- Store HotTiles flat, in a food case, secure shelf, or countertop
