Label Dispenser

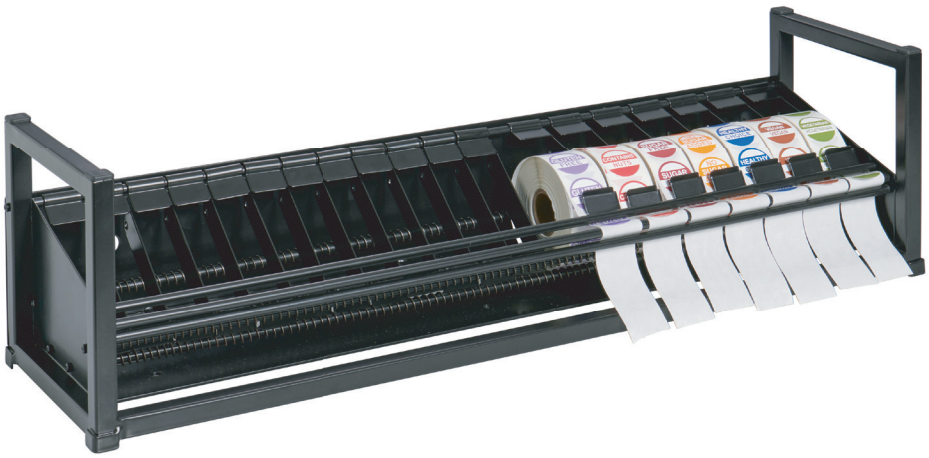

Professional Label Management Made Simple:

Looking for a convenient way to organize and dispense labels? The Kratos Label Dispenser is ideal for deli, meat, seafood, and other retail food labeling applications. Constructed from durable steel with a powder-coated black finish, it holds up to (20) rolls of labels up to 5" in diameter and 1.25" wide. Removable dividers accommodate larger rolls, while the quick-loading design helps improve efficiency. Built-in keyholes allow for wall mounting, or the dispenser can be used on countertops with non-skid feet for added stability. A sturdy stand is available for purchase, sold separately. For extended capacity, two units can be stacked together using the included bolts.

Label Dispensers

Item #	Description	Dimensions
24233	Label Dispenser with Dividers	23.5"W x 8"D x 9"H
