

## Assembly Instructions | SG-2 (Sunglasses Floor Spinner Display)

### PARTS LIST

### DIRECTIONS

1. With 2 Brackets (B) facing toward each other (as shown in the Parts List diagram at left), attach 4 Eyewear Panels (D) to the 2 Brackets using 8 of the screws provided. You just made the first Eyewear Panel Assembly.
2. Create the second Eyewear Panel Assembly by repeating the directions from Step 1, using the remaining brackets, panels and screws.
3. Insert the Short Tube (I) into the Base (J) and secure by tightening the knob.
4. Insert the bottom Cotter Pin (H) into the hole that is within the Short Tube (I), as shown.
5. Slide the Washer (G), followed by the Bearing (F), onto the Short Tube (I). Rest them on top of the Cotter Pin.
6. Insert the Long Tube (C) into the Short Tube (I).
7. Slide one of the Eyewear Panel Assemblies onto the tube assembly [2 tubes with base] so it comes to rest on top of the Bearing (H). The Eyewear Panel Assembly should be able to spin freely.
8. Insert the top Cotter Pin (H) into the hole that is within the Long Tube (C).
9. Slide the Washer (G), followed by the Bearing (F), onto the Long Tube (C). Rest them on top of the Cotter Pin.
10. Slide the remaining Eyewear Panel Assembly onto the top of the tube assembly so it comes to rest on top of the Bearing (H).
11. Insert the Mirror Header (A) into the top of the Long Tube (C).
