

Corner Guards!

bring a new level of safety to your stores!

A LOW COST WAY TO REDUCE CUSTOMER AND EMPLOYEE INJURIES, PREVENT LAWSUITS

If some or all of your stores use wood pallets to raise Merchandise off the floor, you know the problems they cause:

- Customers falling over displays while shopping
- Employees injured on sharp edges of wood pallets while restocking
- Carts damaged as a result of running into displays

Now! MasonWays, Inventors Of The Pallet Guard introduces,

Corner Guards

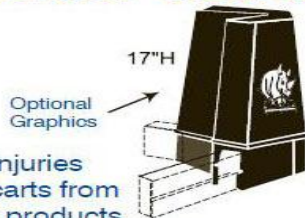

MasonWays Corner Guards are simple molded plastic shapes that snap on the corners of the pallet guard. Pallet Guards are designed to hide wood pallets; Corner Guards, placed on 2 to 4 corners, are designed to give added protection for customers and employees, to reduce injuries, and damaged merchandise, even lawsuits!

Available on the Full range of OSHA Colors: citron, yellow, Orange, red & black.

Corner Guards will accommodate a corporate or store logo, adding identification to the Pallet Guard Display.

CG-17 Corner Guards

- Reduces injuries
- Prevents carts from damaging products
- Locks onto pallet guards

"Why didn't anyone think of this before?"
Asks one safety director of a mass merchandising chain, "not only will Corner Guards cut down on injuries, but our merchandising people will love it."
