

Melamine Use & Care Instructions

- Melamine dinnerware should be handled like any quality dinnerware.
- Harsh or abrasive cleaners, steel wool, or any type of plastic or metal scouring pads are not recommended for melamine products. The use of these products on melamine will cause the finish to be removed and possible staining issues.
- For best results, use only non-abrasive pads to clean or remove dried food.
- Pre-soak melamine products, if necessary, in a high quality pre-soak dishwashing detergent.
- Dishwasher-safe; however, avoid the use of chlorine or chlorine-based detergents or bleach.
- Please consult your chemical specialist for the best solution made specifically for use on melamine or other plastic products.
- **NOT SUITABLE FOR MICROWAVE USE.**
