

1. Mark the appropriate screw holes onto the mounting surface.

2. Install the appropriate fasteners to the mounting surface.

3. To dispense a bandage - firmly grasp the bandage fabric through the wrapper.

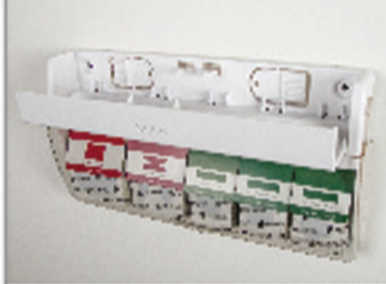

4. Pull the bottom half of the bandage wrapper and the entire bandage downward.

5. A dispensed bandage will be half open and ready to apply to the affected area.

6. To install replacement cartridges insert the prongs into the slots through the bottom compartment.

7. Properly installed cartridges will lock in place and show through into the top compartment.
