FAQ

CLEARDOME™ CHAFER LID

Q: What is the ClearDome Chafer Lid (CDCL)?

A: The CDCL is a NSF certified/compliant, transparent dome chafer cover with serving openings on either side.

Q: Who is the ideal customer for the CDCL?

A: Any foodservice operator engaged in buffet-style service.

Q: What is the ideal chafing application for the CDCL?

A: The CDCL is designed to be used with any full-size chafer that uses industry-standard full-size water pans. This product is not suitable for use with roll-top type chafers.

Q: What is the CDCL made of?

A: Polycarbonate Plastic

Q: Is the CDCL heat-resistant?

A: The CDCL is designed to maintain its structural integrity when used according to chafing dish manufacturers instructions.

Q: What is the CDCL handle made of?

A: The CDCL features a pinch grip handle that is seamlessly incorporated into the design of the unit.

Q: What is the best way to clean and store the CDCL?

A: The CDCL can be cleaned manually with hot water and soap or can be run through a professional-grade (ex: Hobart) dishwasher.

Q: What's the best way to advise customers on how to use the CDCL?

A: An instructional video is currently in development and will be released prior to launch.

Q: Can this product be used indoors and out?

A: Yes, the CDCL provides customers with an attractive solution to the the problem of what to do with the chafer lid once service has started. It acts as a display case, sneeze guard, and dual side serving unit all while helping to maintain the ideal temperature of the food being served.

Q: Where can I purchase the ClearDome Chafer Lid?

A: Please contact SternoCandleLamp customer service at (877) 526-7748.
