PORTABLE WANDSTATION, LEXX SANITIZER & CLEANER, AND HYDRA RINSE WIPES

Portable Wandstation and LEXX Concentrated Sanitizer & Cleaner

Hydra Rinse Single-Use Wipes

ITEMS

- 521040** Portable Wandstation
- 265003** LEXX Concentrated Sanitizer & Cleaner
- 265002** Hydra Rinse Single-Use Wipes

DESCRIPTION

The Portable Wandstation is designed to dispense LEXX™ liquid sanitizer and cleaner concentrate. The wand dispenses diluted LEXX™ Liquid Sanitizer & Cleaner concentrate at a rate of 1/4 gallons per minute, and can be used on all hard non-porous food contact related surfaces.

The 30 foot coil hose combined with a 25 foot water supply line provides 55 feet of mobility. The wandstation meters LEXX™ Liquid Sanitizer & Cleaner concentrate to maximize food safety and standardizes the cleaning process so your equipment is ultra clean, every time.

This system reduces the impact on the environment by leveraging the cleaning power of naturally-derived and readily biodegradable LEXX™ Liquid Sanitizer & Cleaner concentrate. The wandstation effectively delivers LEXX™ Liquid Sanitizer & Cleaner concentrate at maximized efficacious concentrations, which totally eliminate the human element of variability.

As a low pH acidic-based sanitizer, LEXX™ liquid sanitizer and cleaner concentrate removes and prevents milkstone.

FEATURES

Portable Wandstation

- Reduces variation associated with manual cleaning which can lead to bacterial contamination.
- Reduces labor cost associated with manual processes.
- Metering ensures accuracy.
- Note: Solution not included.

LEXX Concentrated Sanitizer & Cleaner

- NSF-listed as a no-rinse cleaner and sanitizer for food processing areas and equipment.
- Low pH sanitizer and cleaner removes and prevents milkstone.
- Saves water as a no-rinse formula.
- Naturally-derived and readily biodegradable.

Hydra Rinse Single-Use Wipes

- Each canister contains 225 wipes.
- Single-use wipes mitigate recontamination.
- Naturally-derived and free of phosphates and chlorine.
- Works on any hard non-porous food contact surface.
- Lint-free, all-purpose wipes are safe for cleaning any non-porous surface.

Every machine includes Stoelting's White Glove Service. One call does it all – customer service, technical service, parts or warranty information, installation, startup, sales, on-site service dispatch and much more. Available 24 hours a day, seven days a week year-round.

Continuous research leads to ongoing product improvements; therefore, these specifications are subject to change without notice and should not be used as installation specifications.

PORTABLE WANDSTATION, LEXX SANITIZER & CLEANER, AND HYDRA RINSE WIPES

DIMENSIONS

GENERAL SPECIFICATIONS

Coil Hose Length	Water Supply					LEXX Concentrated Sanitizer & Cleaner	
	Hose Length	Temperature	Pressure	Sanitary pH	Hardness	Liquid Volume	Diluted Dispense Rate
30 ft.	25 ft.	55°F - 120°F	> 50 PSI	7.0 - 8.0	< 180 ppm	1 gallon	1/4 GPM

- Must install the included 50 PSI water pressure regulator.
- A backflow prevention device is required (not included). Follow applicable National, Federal, State and local codes.
- Ideal water temperature: 78°F (25.5°C).
- Install a water softener (not included) to minimize hard water impact on the Portable Wandstation.

EFFICACY STUDY DATA OF LEXX LIQUID SANITIZER & CLEANER CONCENTRATE

Pathogen	Common Name	LEXX Contact Time	Percent Reduction of Live Pathogen
Staphylococcus aureus	Staph	30 sec.	> 99.999%
Escherichia coli	E. coli	30 sec.	> 99.999%
Listeria monocytogenes	Listeria	30 sec.	> 99.999%
Salmonella enterica	Salmonella	30 sec.	> 99.999%
Campylobacter jejuni	Campylobacter	30 sec.	> 99.999%
