

BANDSAW BLADES

from **ALFA**
INTERNATIONAL
Excellent All-Purpose Blades
at Economical Prices!

NOW WITH
HARDENED-TEETH BLADES,
TRUE-TEMPERED FOR
LONGER LIFE

Alfa's bandsaw blades, the highest quality on the market today, redefine the cutting edge.

- Premium quality **hardened steel** for sharp edges and **long life**.
- **Consistent tooth** profile for optimally sized curvature and spacing provides smooth cuts, producing a more saleable product. Ideal for fast cutting.
- Welds are **fully guaranteed against breakage**. Computer-controlled welds are extremely strong, uniform, smooth and nearly invisible.
- **Individually wrapped** in moisture resistant paper & imprinted with length.
- **Tested at each step** of the manufacturing process to ensure uniform strength and consistency.

**Scalloped
and Stainless
Steel Bandsaw
Blades also
available by
Special Order**

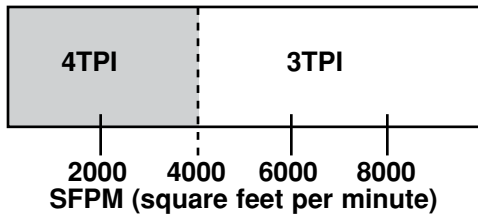

ALFA #	TEETH PER INCH	SIZE	USE
420-(length)	4	.022" x 5/8"	General Use - Fresh Meat
