WOODEN WASTE RECEPTACLES

The Alpine Industries Wooden Waste Receptacle is a commercial grade solution for holding large amounts of waste. Expertly crafted with a total Internal Height of 40.5" x 19", you'll have plenty of space to place a large capacity liner of up to 40 Gallons. These Waste Receptacles are the perfect waste management solution for foodservice facilities. The unit is equipped with a built-in 22" x 21" top tray holder and a push door with a Thank you message engraved on the unit. Available in Black, White and Medium Oak Finishes, this unit is neat, clean and attractive, so that you can have all the functionality and efficiency of a waste bin, without sacrificing your facility's appearance.
