# Camshelving® Pegboard Storage System

Introducing the first NSF listed plastic pegboard storage system for commercial kitchens.

Store frequently used light duty items such as lids, drain shelves, tongs, spoons, ladles, or spatulas. Eliminate unsanitary storage of small items in bins or pans and free up valuable shelf space.

The 1/4" thick plastic pegboard is extremely durable, strong and stable. Will never dent, bend, flake, rust, or corrode. Textured matte black finish is easy to clean and hides tough wear and tear.

- Install on 18", 21" and 24" deep units, stationary or mobile, 64" or taller.
- Each pegboard kit includes 12 pegboard hooks. Additional hooks may be ordered separately.
- Maximum weight bearing per hook 15 lbs. and per unit 150 lbs.

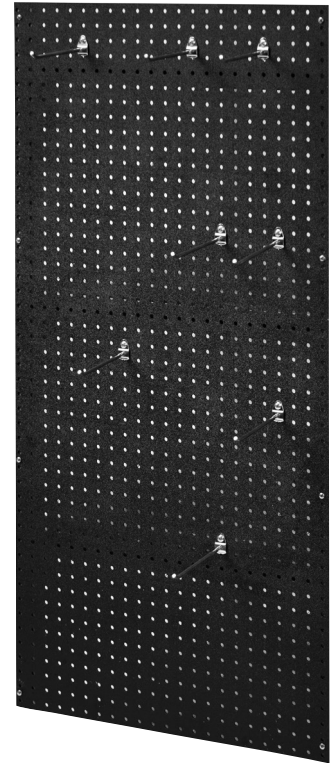

Unique double locking, 6" straight stainless steel pegboard hook features bottom locking tab and top stainless steel screw for extra holding strength and superior stability.

*"We were challenged with space because our footprint was so much smaller than we're used to in the casual dining business. We started going up instead of sideways. By installing the pegboard, our lids, utensils and inserts are using a drip-dry system, giving us more storage space on our Camshelving."*
