# ABOUT IRP, INC.

QUALITY PRODUCTS MADE IN THE U.S.A.

OUR MISSION

“Our first priority is to the customer. Our mission is simple, sincere and focused. First to provide the industry with the best possible service we can honestly deliver.

Second, to demand that our products not only have the best quality standards insuring trademark integrity, but that these products enhance and increase our customer’s brand awareness, visibility and sales.”

- Floyd Mount, President

OUR VALUES

Iowa Rotocast Plastics, Inc. has a well-earned reputation amongst their clientele for their reliability, integrity, and credibility. IRP’s success in the industry can be credited to our strong work ethic and our unyielding passion to provide the best solution to our customers.

Whether your idea is a new rotationally molded plastic part or a grandiose custom kiosk, IRP is ready to help turn your idea into reality. Our team has a track record of delivering finished products on budget and on time.

OUR PROMISE

IRP is confident that our RotoTough, CustomFab, Product Displays, Breezers, and Grizzly Coolers are the finest in the industry. Whatever your needs may be, we will assist you in making the best investment in your image.

This dedication to satisfy our customers is the reason IRP is referred to as the “beverage solution experts!"

WHO WE ARE

QUALITY PRODUCTS CRAFTED IN THE U.S.A.

Iowa Rotocast Plastics is a manufacturer of premier merchandising products catering to an array of customers, including Fortune 500 companies such as Anheuser-Busch, MillerCoors, PepsiCo/Gatorade, Coca-Cola, Constellation Brands, Nestlé Waters, and many more. IRP has become synonymous with words such as Quality, Customer Satisfaction, Reliability, and Value. IRP products have unparalleled craftsmanship because each and every product sold to their customers is manufactured in one of their two plants, both located in Northeast Iowa, heartland of America.

The IRP family of brands is divided into three main divisions:

- 1. RotoTough products including ice merchandising solutions, wire racks, case stackers, and electronic refrigeration.
- 2. A premium outdoor cooler line DBA Grizzly Coolers.
- 3. An innovative solution division that specializes in fabricated food & beverage equipment for on/off premise. IRP has significant experience in the design and fabrication of carts and kiosks in over a 200 different professional or collegiate sports venues. IRP carts can be designed with a combination of food & beverage serving options, or as mobile retail or POS stations.

Given the caliber of the products produced and the phenomenal growth of the company, it’s easy for IRP’s humble grassroots beginning to get overlooked. What is now known as IRP was originally the “Super Cooler” company. Owners Floyd & Susan Mount founded the company in 1983 and set up production in a pole-shed constructed on the Mount’s home property. In fact, the first Super Coolers were produced on an oven that Floyd and an employee constructed themselves.

In 1986 the company changed its name to Iowa Rotocast Plastics to better reflect their continually expanding product offerings, and in 1987 production was moved to a larger facility in Decorah, IA. Since it’s inception 32 years ago, IRP has had three relocations and numerous expansions due to growth. The current IRP manufacturing plant based in Decorah is now over 200,000 square feet, with production running 24 hours a day, five days a week. In 2014 IRP’s Fabrication Division completed a 40,000 square foot expansion to increase custom fabricated capabilities.

Whether your idea is a new roto-molded plastic product, a wire rack in a custom powder-coat color, or a grandiose kiosk, IRP is there to turn your idea into a reality. No job is too big or too small. Their dedicated team has a proven track record of delivering finished products on time and within budget. If you can dream it, IRP can build it.

Whether your idea is a new roto-molded plastic product, a wire rack in a custom powder-coat color, or a grandiose kiosk, IRP is there to turn your idea into a reality.

# ROTOTOUGH™

DURABLE ICE-DOWN MERCHANDISERS

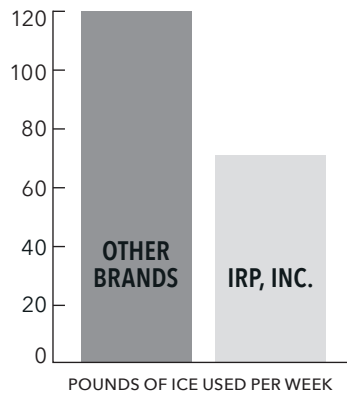

# WHY CHOOSE IRP AS YOUR BEVERAGE SOLUTION EXPERTS?

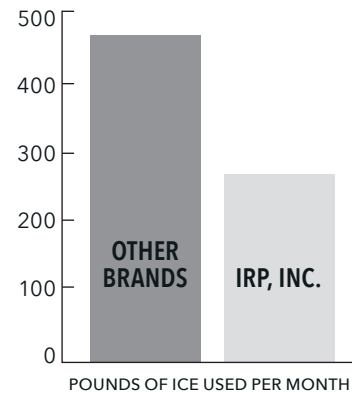

## WE'VE GOT WHAT IT TAKES

- Superior quality
- Innovative
- Reliability
- Functionality
- Dependability
- Made in the USA
- OEM compliant
- Unequaled service
- Versatility
- Durability
- Consistent look & feel
- Custom designs

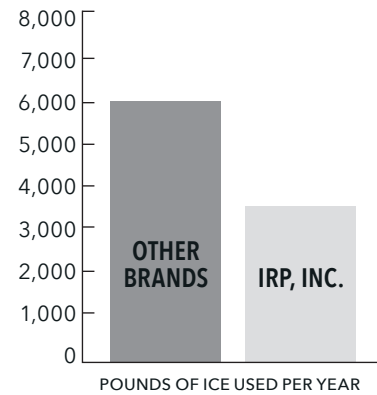

## USE LESS ICE, SAVE MONEY

IRP SAVES YOU  
\$47 PER UNIT

IRP SAVES YOU  
\$188 PER UNIT

IRP SAVES YOU  
\$2,400 PER UNIT

**Durability.** IRP RotoTough™ products are the most durable merchandisers in the field, many of our original products built in 1983 are still in use today.

**Longevity.** When you need a merchandiser to stand the test of time, IRP products are the absolute solution to your needs.

**Cost effective.** IRP products pay for themselves within a few months or, at longest, after a year of their use. At some venues it takes less than 2 months to see a substantial ROI.

**Made in the USA.** All IRP products are designed and manufactured with extreme pride in Decorah, Iowa. Being "Made in the USA" ensures our quality and commitment to excellence.

## ARCTIC

### DIMENSIONS

- 51" W x 24" D x 38" H

### CAPACITY

- 448 - 12oz. cans
- 336 - 16oz. cans
- 196 - 24/25oz. cans

# ICE HAWK

## OUR TOP SELLING ICE MERCHANDISER

If you're looking for an attractive and economical ice-down merchandiser, look no further than the Ice Hawk. It remains one of IRP's best selling ice-down units to date. The Ice Hawk features a full wrap graphic, with 360° of branding visibility. Recent updates include improved casters, drain, and new crystal clear lid with pin hinge system. The seamless textured lip is aesthetically pleasing to the eye, while giving it a high-end look.

### DIMENSIONS

- 21.25" Dia. x 36" H x 14.5" Deep

### CAPACITY

- 106 - 12oz. cans
- 82 - 16oz. cans
- 52 - 24/25oz. cans
- 83 - 12oz. bottles
- 60 - 20oz. bottles
- 72 - quarts

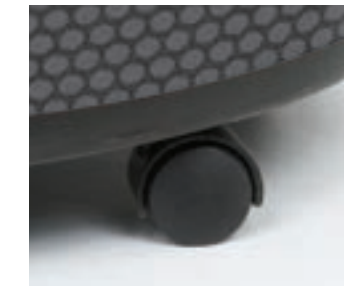

### FEATURES

- Interchangeable graphics
- Available in ice-less innovation: includes full set of ice packs that keeps product cold where ice is not an option

### ALL NEW DRAIN

New and improved ¼ turn "on/off" valve. Attach a standard garden hose to the threaded spigot to facilitate draining. Drains 40% faster than previous drains.

### PREMIUM CASTERS

Our commercial grade heavy-duty 1 ½" twin wheel casters that will handle any type of surface with ease.

### NEW IMPROVED LID

New crystal clear lid features a pin hinge which allows complete access to product inside the merchandiser.

## ICE CUBE

### DIMENSIONS

- 11.5" Dia. x 7.5" H

### CAPACITY

- |                     |                     |                     |

with wire rack insert

# THINKING OUTSIDE OF THE MOLD

## BRINGING YOUR DESIGN TO LIFE

Have an idea for a roto-molded product but don't know where to start? Let IRP take the guesswork out of it for you. When you work with us, the entire process is kept in-house and under one roof. This means we personally oversee your custom product from concept to reality. From start to finish, IRP will be with you every step of the way. Working together, we can make your finished product something to remember.

### THE IRP DESIGN PROCESS

- **STEP 1**
- Customer submits an idea or rough drawing to IRP. This can be done via phone, e-mail, video conference, or in-person meeting.
- **STEP 2**
- IRP's in-house Design & Engineering Department creates 3D CAD renderings.
- **STEP 3**
- Quote package is sent to client.
- **STEP 4**
- Design is finalized and approved by client.
- **STEP 5**
- Tooling is started. Product samples undergo rigorous quality control testing.
- **STEP 6**
- Customer approves product sample for final phase of production.
- **STEP 7**

# MAKE IT YOUR OWN

## CUSTOMIZE YOUR IRP, INC. UNITS

Enhancing your brand is easy with IRP's RotoTough™ ice-down beverage coolers, keg coolers, jockey-boxes and many other products. IRP coolers keep your product extremely cold, and our double-walled designs with foam insulation ensure that ice lasts all day even in the hottest conditions. Add a custom touch by choosing from multiple colors, graphic options, and other accessories.

### ADD-ON FEATURES

IRP's optional product features make it easy to create the perfect unit for all of your needs. Don't see what you're looking for? Give us a call to discuss customization!

### COLOR OPTIONS

Nearly all of our RotoTough™ units are available in a wide variety of colors to choose from. Ask us about custom colors!

\*Custom colors available for an additional charge. Minimum quantities may apply.

# RACKS & STACKERS

CUSTOMIZABLE PRODUCT DISPLAY

# RACKS & STACKERS

## OPTIMIZED MERCHANDISE DISPLAYS

IRP Product Displays are available in durable plastic or metal, depending on your needs and footprint. The IRP Wire Racks are an attractive solution to displaying bulk product quantities without sacrificing excessive floor space.

All of the floor racks are black powder-coated steel and offer multiple branding opportunities with interchangeable graphic panels and header. Floor racks (excluding the Mini) come standard with quality casters for ease of mobility.

IRP’s hanging racks are a great solution with a dual purpose: maximizing space in your C-Store’s refrigeration section while promoting your brands. They work equally well for new product roll-outs and seasonal beverage offerings.

The Case-stackers by IRP are an indestructible and attractive eco-friendly alternative to pallets. Made of extremely durable plastic that is shatter-proof, crack-proof, and easy to clean. Available with graphics on all 4 sides to maximize brand awareness. Case-stackers can be configured to any size or shape, as determined by your needs and your store’s footprint.

### CUSTOM DESIGNS

Don’t see what you’re looking for? Contact IRP to discuss custom options to best suit your brand. Racks can be designed to fit your needs.

### ADD SOME COLOR

Our metal racks can be custom powder-coated to give you the best looking display options for all of your brands.

### SS INTERCHANGEABLE RACK

• 4-6 mushroom suction cups on per rack	

# FABRICATION

CARTS AND KIOSKS FOR EVERY VENUE

# FABRICATION

## CUSTOM UNITS TO FIT YOUR NEEDS

IRP has significant experience in the design and fabrication of carts and kiosks in over 200 different professional or collegiate sports venues, 102 of which have seating capacity over 15,000.

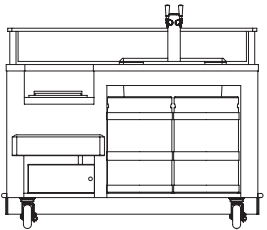

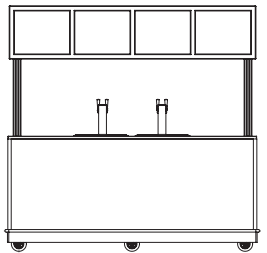

IRP typically collaborates with the concessionaire at each of these locations to provide new kiosk solutions on an on-going basis, based on year over year needs. IRP carts and kiosks can be created to your exact specifications, no cart is too big or too small. One of IRP's largest projects to date was over 20 feet in length. IRP carts can be designed with a combination of food & beverage serving options, or as mobile Retail or POS Stations.

IRP's entire process is streamlined because all elements of design and production are kept in-house, allowing maximum efficiency and quality control. This means all projects ship straight from the facility where they are designed and fabricated.

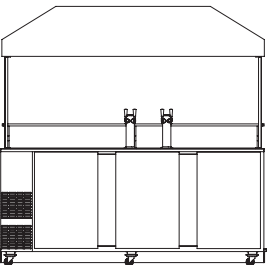

Why does this matter? Because it allows IRP to have complete control over your product, from start to finish. Quality Control Technicians handle every aspect of prepping for shipping including wrapping, packing, and crating. In addition, The assigned Project Managers will ensure your project doesn't leave the IRP facility until it is absolutely perfect.

IRP's Fabrication Division recently completed a 40,000 square feet addition, which has resulted in an increase in fabricated production capabilities by over 3,100 units in the last 18 months. This equals a 165% increase in custom projects from 2013 to 2015.

IRP's explosive growth in this sector is due in part to their innovative designs, superior products, as well as their ability to meet crucial project deadlines. The current IRP manufacturing plant based in Decorah is now over 200,000 square feet, with production running 24 hours a day, five days a week.

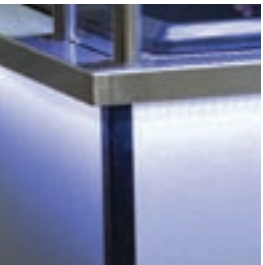

"...your project doesn't leave the IRP facility until it is absolutely perfect."

### ADDITIONAL FEATURES

IRP's custom fabricated carts and kiosks are available in virtually any size and configuration you desire. IRP builds thousands of carts a year, so the images below are just a small representation of the most commonly requested features. Every cart is designed in-house by IRP and built by IRP so if you have an idea, we'll make it happen.

# CUSTOM DESIGNED

## UNLEASH YOUR IMAGINATION

Founded in 1983 in the city of Decorah, Iowa Rotocast Plastics takes pride in being a trusted manufacturer of custom-fabricated foodservice and beverage equipment for stadiums, venues, arenas, amusement parks and convention centers. IRP equipment can be found in more than 200 professional and collegiate sports venues, in all 50 US states and in 41 countries around the world. The company's equipment is UL Listed for safety and NSF standards.

By tackling seemingly insurmountable projects, Iowa Rotocast Plastics (IRP) has carved a niche for itself in the fabricated F&B equipment sector. IRP is accustomed to handling challenging requests for clients' fabricated carts - whether a project calls for a replica ice-resurfacing machine beverage cart, a wood barrel draught kiosk, or a unique food truck-inspired cart designed with both draught and food serving equipment.

Unique projects, many of which call for one-off designs, require highly skilled labor every step of the way, from inception right the way through to fabrication. The finished design may serve as a visual representation of the labor-intensive process, but in many cases the true challenge comes not from the design itself, but from implementing that design in a way that will enable shipping, mobility of the cart or kiosk in the destination venue, breakdown of headers and canopies, and overall intended function.

IRP is well aware that while form may grab the consumer's attention, function must take precedence in order for the equipment to serve its purpose. Whether a customer is looking for a cart 6ft in length or 30ft, IRP is willing and able to handle every element of a client's project. From conception through to fabrication, IRP's dedicated team wholeheartedly devotes itself to any project with professionalism, quality and efficiency.

# Grizzly® DRIFTERS

## THE SOFT SIDE COOLERS BUILT TO PERFORM

Grizzly Drifters have a coated ripstop and ballistic polyester shell, TPU liner, and nonskid molded bottom can handle the most demanding situations. The Drifter 20 also has a removable waterproof TPU liner. 15 millimeters of insulation keeps everything cold, this cooler is sure to become your go-to all-day cooler. The Drifter 12's wide mouth top with an easy-open zipper makes it the perfect lunchbox or a handy growler tote. The Drifter 20 features a flip top lid with an easy-open zipper, shoulder strap, carry handle and multiple pockets. Designed to be used on the go, these soft sided coolers are built to last. Imported.

Enhance your Grizzly Drifter with your brand or logo for a truly customized piece. Custom colors are also available, though minimums will apply.

# GRAB A GRIP

## WHY CHOOSE GRIZZLY DRINKWARE?

Durable stainless steel Grizzly drinkware has been optimized to keep your favorite beverages at their ideal drinking temperature. Our Grizzly drinkware has been engineered to be unmatched in ice retention as well as keeping hot drinks hot.

Grizzly Grip Cups are available in multiple sizes and colors. The ergonomic hand grip and rubberized pad on the bottom of the cup give it an edge over similar products on the market. Built like a tank, Grizzly drinkware more than lives up to the Grizzly name.

Match your company colors and add a custom logo for a personalized look. Our branded Grip Cups also make an excellent incentive for Customer Loyalty programs!

## WHAT'S INSIDE

- BPA Free
- Sweat Free
- 18/8 Stainless Steel
- Double-Wall Vacuum Insulated

## BRAND WITH YOUR LOGO
