

# Liquid or Powder

Joy Professional has your commercial kitchen needs covered

50% More Surfactant\*

Joy® Professional is our commercial grade detergent formula, designed with the most concentrated level of powerful surfactants, while generating a thick, rich layer of suds that will last for the duration of the job while leaving surfaces and areas smelling lemon fresh. The professional formula works to form surfactant micelles that will stay suspended in wash water to provide micro-reservoirs of reserve cleaning power; use just 1-2 oz. of Joy Professional liquid for a 10 gallon sink!
