

The Large Round Stainless Steel Dripless Water Pan.

1A11401200 ●

The Large Round Dripless Water Pan is made of 18-10 stainless steel. This water pan is designed to work with the water management system and replenish the water in the water pan from it's own condensation. This will minimize the labor required to service the chafers, help prevent overheating and preserve the quality of your food. It is designed to work with any of our large round chafing dishes.
