

The Hot Food Warmer Box with removable shelves and an electric heat warmer.

1A11811

The Hot Food Warmer Box is equipped with removable shelves. It also has an electric heat warmer, which is pre-set to 175°F. The box is made with a stainless steel exterior and an aluminum interior, for heat efficiency. It is designed to be durable, to ensure that it can withstand the daily use and abuse associated with the foodservice industry.
