## Domino Basket \& Cutting Board Display

## 1A19474

DOMINO is a completely new concept in modular buffet systems. The DOMINO Basket \& Cutting Board Display inlcudes the bread basket stand with acrylic dome and the bread cutting board stand. All DOMINO components can share legs so you can weave together pieces to build it your way. The bread basket \& cutting board displays can also be used separately.

The DOMINO system connects like Legos, but is made of solid 18/10 stainless steel. Mix it, match it, change it; build it high or keep it low. It is simply the most versatile, easy to use system ever made.

All components can be connected to each other. Shared legs slide into each other quickly and easily. Add a leg for extra height, remove a leg for a lower profile. You are only limited by your imagination.

Build a beautiful breakfast buffet this morning. Add some different components and you have a lunch buffet. Add a couple more components and you're ready for dinner. What would you like to see? Decide and make it so. No matter what, your choice will be SMART!

Includes: 2each 1A19406090, 1each 1A11513STS, 1A19411BCB, 1A19413BAS, 1each 1A19927BOM, 1each 1A194022602, and 1each 1A194022601
