# Florentine II™

Anchor Hocking Foodservice is pleased to announce the next evolution of the popular Florentine™ stemware collection with the introduction of Florentine II. Offering a refreshed, contemporary look at a competitive price point, Florentine II is fit for any establishment looking to make a modern statement. The wide foot maximizes stability while its sturdy stem is easy to handle. Bowls hit their wide point low before a gentle slope tapers toward a sheer rimmed top. The result is a versatile glass that's sleekly shaped and reliably durable. For additional information or for samples, contact your local Anchor Hocking sales representative.

- Brilliant Clarity
- Updated and Contemporary Bowl Shape
- 6 Capacities and Shapes
- Sheer Rim
