## We Offer Solutions for Productivity.

### Model #BL-2: Hand-Held Label Applicator.

- Perfect for applying various types of die-cut labels to virtually any surface, for small UPC bar code labels and for labeling palletized cartons.
- Battery powered. Uses a Lithium Ion Battery which provides full day production, quick recharge and no memory affect.
- Lightweight and fully portable.
- Significantly increases production over hand-labeling and can be used on a variety of products.
- For labels up to 2 3/8" (62mm) wide and 5" (130mm) long on a 1" core.
- Ultra touch sensitive nose allows the BL-2 to be used on sensitive products without concerns of damage or scarring.
- LED indicates battery power, battery is easily removed and charged in separate charging base. Additional batteries can be purchased for continuous production.
