## MODULAR TEACHER DESK

The teacher who stands in front of a chalkboard all day is a relic of the past. Today's educators lead engaging, hands-on activities where students learn by doing, making, and exploring the limits of their imaginations. Recognizing how much instruction has evolved, we created Luxor's Modular Teacher Desk to meet modern classroom needs.

Designed primarily as a teacher table, it features a multipurpose design that also makes it an excellent choice as a science lab table or training table.

Highlights include a chemical-resistant top, tool-free adjustable height, a modesty panel, and multiple built-in pegboards. Integrated connection rails, meanwhile, make it easy to connect compatible Luxor MBS-series modular storage cabinets and bookshelves to create custom classroom solutions. Full-swivel, lockable casters provide easy mobility.

### Dimensions:

- Overall dimensions: 60.25" W x 21" D x 32" to 38" H
- Tabletop: 60.25" W x 21" D x 0.75" H
- Pegboard, sides: 23.5" H x 17" W (each)
- Modesty panel/pegboard: 60" W x 9.5" H

### Features:

- Tool-free height-adjustable tabletop allows for sitting and standing
- Tabletop is chemical resistant
- Built-in pegboards for convenient storage of tools, makerspace supplies, etc.
- Modesty panel blocks view beneath desk and provides additional pegboard space
- Integrated rails provide easy connection with compatible Luxor MBS-series storage modules; modules can be attached both underneath and to the sides of the table
- 220 lb. weight capacity (evenly distributed)
- Powder-coated steel frame for durability
- Four casters allow smooth maneuverability; locking brakes offer stability for stationary use

# MODULAR TEACHER DESK

DTTB002

This multifunctional instruction solution is perfect for hands-on classroom activities. It offers sturdy construction, effortless mobility, and compatibility with other components from Luxor's line of modular classroom solutions.
