Stop 'n Scrub[™]

Portable Handwashing & Sanitizing Stations

Promote an important practice against infection spread, even in remote or other applications where conventional restrooms are not accessible.

Fully Functional Sinks Anywhere You Need Them

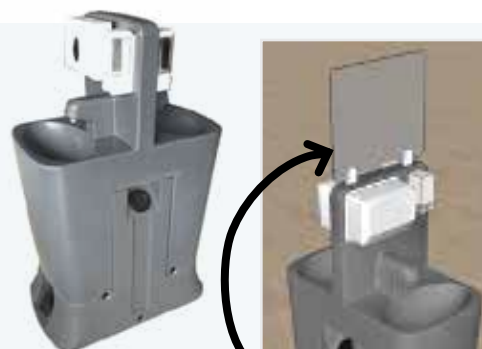

- Every Stop'n Scrub unit is a completely self-contained, side-by-side, 2-sink system, with each side featuring a faucet and drain, a dispenser for paper towels, and a dispenser for soap or sanitizer.
- Drains flow into a single, built-in wastewater tank
- Easy to use—a foot pedal at the base activates water flow
- Models available in a 12-gallon or 30-gallon size
- Custom graphics available

Built to Survive in Public

- Made of durable, high-density polyethylene (HDPE)—light enough to easily move and position, but tough enough to withstand commercial and industrial environments
- UV-proof to maintain appearance, even after marathon use in the sun
- Stainless-steel mount widens the base to optimize stability
- Easy to empty, wipe down and disinfect

Model #69960
12-gallon

Model #69961
30-gallon

Improve hygiene even further by adding an Easy Shield[™] clear partition.

Suggested Uses

The Stop'n Scrub is a perfect solution for busy outdoor venues, construction zones and other remote sites with no convenient access to a restroom sink. It's also ideal for restaurants with outdoor seating areas, particularly when indoor patronage is closed or limited. It can even find a place in an indoor scenario, when an anticipated traffic spike is temporary and not worthy of an investment in a permanent bathroom installation.

Standard Specifications

Model	Description	Dimensions (w x d x h)
69960	Portable Sink, 12-Gallon	10" x 28" x 42"
69961	Portable Sink, 30-Gallon	14" x 28" x 42"
